# PALLET RACKING & PRICE LIST

## Pallet racking

### PALLET RACKING IS NOT ROCKET SCIENCE

You need it strong. You need it well priced. And you need it now. Unirack is superheavy-duty and has been tested to AS-4084-1993 standards by Monash University.

A high quality product. We keep everything in stock ... and we price it to move.

Our salespeople are not rocket scientists. They are here to help get your racking right and installed quickly. Without fuss. Without bother. Give them a call.

**Pallet racking can be converted into a hard wearing work bench. Price approx. \$388.00 depending on top. Can come with castors too.**

### EXPERIENCE COUNTS

Our friendly team are very experienced in fitting out warehouses of any size. Our racking is in such well known places as Rebel Sport, WA Police Department, Adidas and countless other companies.

### VALUE FOR MONEY

We don't cut any corners with the quality of our racking, but we don't price it as if it's made of gold either. It's compatible with the major brands but is up to 40% cheaper. It's a no-brainer.

### A QUICK EXAMPLE

You have 8 metres of wall, 5 metre ceilings and a forklift.

#### Step 1. How many bays?

With 8 metres of space. Divide this by 2.6 metres (the length of each orange beam). This gives you 3.08. So, you have enough space for 3 bays. This will require 4 uprights as the two middle ones will be shared.

#### Step 2. How high?

If you have about 5 metres of available roof height and a means of getting up that high (stacker, forklift, stairs) the 4.2 metre uprights would be suitable.

#### 3. How many levels (beams)?

Most warehouse would not require beams at the base of the upright. You just place the pallets directly on the floor. So most of the time you would have 2 or 3 levels i.e 4 or 6 beams per bay.

#### THE QUOTE

4 x 3658mm Uprights @ \$135.00 = \$540.00

12 x 2591mm Beams @ \$45.00 = \$540.00

Total Cost \$1080.00 inc GST

(Delivery & Installation available as required).

# 5 Things You Should Look for in a Racking Supplier

**1. AS4084-1993 Tested** -- this is the Australian standard for pallet racking. If the racking you have is tested, installed & maintained to this standard you have nothing to worry about when Worksafe come knocking. Unirack racking is tested by Monash University.

**2. Strong components with no compromises & believable load capacities** -- many companies say there is no difference between beams. You see some interesting claims about the load capacities that defy the laws of physics. We standardise on a beam with a 100mm profile (others use 80mm) and 4 hooker beams (not 3). This gives a load capacity of 2082kg.

**3. Dexion Compatible** -- it is good planning to have a system that will work with other systems. Our beams and uprights use the same shape connectors as Dexion. If you already have some Dexion racking, then ours will slot right in.

**4. Access to Excellent Planning & Safety Advice** -- We can show you how to fit it all in and lay it all out so your stock, your employees and your forklift are happy together.

**5. Stock Availability & Price** -- our accountants tell us that we are mad keeping as much stock as we do. Luckily for you, we don't really listen to our accountant much.

What this adds up to: your warehouse kitted out quickly with racking that is strong, legal, cheaper -- and sold by friendly, knowledgeable people.

## Price & Dimensions

### UPRIGHT FRAME (BLUE) ASSEMBLED WITH FOOTPLATES & DYNABOLTS

Code	Description	Capacity	Price
U-2438	2438mm high x 838mm	9000kg	\$90.00

U-4877	4877mm high x 838mm	9000kg	\$169.00
U-5791	5791mm high x 838mm	9000kg	\$199.00

### BEAMS (ORANGE) - 4 HOOKER CONNECTOR - PROFILE OF 80/100 X 45 X 1.5

Code	Description	Capacity	Price
B-1372	1372mm internal span	2000kg	\$35.00
B-2591	2591mm internal span	2082kg	\$45.00
B-2743	2743mm internal span	1873kg	\$51.00
B-3000	3000mm internal span	2082kg	\$59.00
B-2591ST	2591mm Step Beam	650kg	\$45.00

### COMMON ACCESSORIES

Code	Description	Price
WD	Wire Decking - 1200mm x 838mm	\$45.00
TSB	Timber Support Bars	\$12.00
LP	L-Shaped Upright Protectors	\$25.00
FEB	Fork Entry Bars	\$25.00

### OTHER RACKING OPTIONS

Code	Description	Price
CL	Cantilever Racking	\$Call us now!
DR	Drive-Through Racking	\$Call us now!
DD	Double Deep Racking	\$Call us now!

## ACCESSORIES

Your pallet racking comes with everything you need to put it together -- base plates, locking pins, other paraphernalia -- and if you need wire shelves or protective guards, we've got them too. Ring for other common accessories.

Clockwise from above: Timber Support Bars; Fork Entry Bars; U-Shaped Protectors; Wire Decking.

# Longspan Shelving

Longspan shelving is our mid-range storage solution. Designed for fitting into squeeze spots and for holding boxes, parts or anything that is reasonably heavy. It holds impressive weights of up to 650kg per shelf (and 4 tonnes per bay). And we hold so many sizes that we challenge you to find a space we can't fit out to within 20 cm.

#### KEY FEATURES

- **Clicks together:** We assemble the uprights; you just click the beams in and drop the shelf on top.
- **Fully Modular:** Choose from 5 different shelf lengths, 3 depths and 2 heights.
- **Many Shelf Options:** Particle Board, Metal Wire or Galvanised Shelves for different uses.
- **Safety Locks:** are supplied with each beam to prevent beams being jogged loose.
- **Dynabolts:** feet have holes for dynabolts should you choose to use them.

## WHAT DAVE HAD TO SAY...

*“For the first time in my life my shed is truly organised. Now I have all that stuff off the floor! What’s better? It wasn’t expensive and was so easy to put together? I’m coming in to get some more to organise my work stuff.”*

David Urban Landscapes, Clifton Hill VIC

## LET'S LOOK AT AN EXAMPLE

#### Example:

You have 4200mm of space and your staff can only reach up to 2000mm high without getting dizzy. 600mm deep is a good fit with what you want to store. And 4 shelves is fine.

#### Solution:

Check the table on the right hand page. You have 4200mm of space so you'll need more than 1 bay. Get 1 "First Bay" of 2020-6 for \$344 and an "Extra Bay" of the same for \$304. Total: \$648 inc GST.

## Step by step guide to buying your Longspan

**Step 1:** Work out how high you want your shelves to go. We have 2 heights of 2000mm or 2500mm.

**Step 2:** Work out how long a space you have and what length beams to use. You want to know what length each shelf should be but there is a trick. You have to allow 55mm for each of the uprights. So, if you have 2000mm of space you would use 1800mm beams.

**Step 3:** Work out how deep you want your shelves to be. 400mm, 600mm or 800mm are the sizes. Vast majority of people go for 600mm.

**Step 4:** Work out how many levels. You can have as many levels as you can fit in. Most people will use 4 levels for 2000mm high and 5 levels for 2500mm high.

**Step 5:** Check out the table on the right to work out the price. Get your first bay price, then if you want to add more, add your extra bay. If you want an extra shelf (i.e go from 4 to 5 shelves), then look to the end column. All prices include the particle board, beams and completed uprights.

CALL FOR ADVICE IF YOU ARE CONFUSED!

### 2000mm High Long Span Shelves with 4 shelves and 18mm Particle Board

Code	Dimensions (high x wide x deep)	First Bay	Extra Bay	Extra Shelf	Load Capacity
2012-4	2000 x 1200 x 400	\$230	\$195	\$40	650kg

## 2 SHELVING CHOICES

### TIMBER

18mm particle board shelves are cheap but still really strong.

### METAL

Metal are more expensive but good in wet environments and last for years. Ring for price.

All Prices are shown including Timber on all Particle Board Shelves

## Chrome & Epoxy 4-Tier Shelves

SH2448CH \$259.00

1219mm long — 610mm deep— 1800mm high

Chrome wire shelving is good for dry store

Chrome shelves (above) look great but.....the Epoxy shelves (below) have a thick epoxy coating which is super-resistant to chipping and better for coolroom environments than chrome.

SH2436EP \$189.00

914mm long — 610mm deep— 1800mm high

Epoxy coated wire shelving is good for coolrooms/wet areas

Shelf detail

The very familiar shelving system at a not-so-familiar price.

- Each set comes with 4 shelves
- Shelves adjust to anywhere along length of poles
- Extra shelves available at 25% of 4-tier price each
- Castors available - \$40 per set of 4
- Load capacities of about 100kg per shelf

Chrome or epoxy?

Chrome looks absolutely fantastic but is a little more expensive. A reflective silver surface that reflects light and gives off an aura of sophistication, so they are commonly used in retail areas where they need to look good.

The epoxy resin is a rubberised coating. That makes them highly water resistant. So they are excellent for coolrooms or refrigerated environments. And cheaper too.

### CHROME WIRE SHELVING for Dry Store

CODE	LENGTH (mm)	WIDTH (mm)	HEIGHT (mm)	PRICE*
SH1818CH	457	457	1800	\$145
SH1836CH	914	457	1800	\$199
SH1848CH	1219	457	1800	\$219
SH1860CH	1524	457	1800	\$249
SH1872CH	1829	457	1800	\$269
SH2424CH	610	610	1800	\$169
SH2436CH	914	610	1800	\$229
SH2448CH	1219	610	1800	\$259
SH2460CH	1524	610	1800	\$289

### EPOXY COATED WIRE SHELVING for Coolrooms

CODE	LENGTH (mm)	WIDTH (mm)	HEIGHT (mm)	PRICE*
SH1818EP	457	457	1800	\$135

# PALLET JACK & SPECS

**\$349.00**

Delivery available for approx \$50 in metro areas

QUALITY INCLUSIONS AT AN EVERYDAY PRICE

Euro Pallet Jack  
\$349.00

Standard  
Pallet Jack \$349.00

## Pallet jacks

Our pallet jacks are super robust — we have scoured the world to find the best jacks and heaped on the quality features to make them last.

- Big 2500kg capacity — tested to CE, TUV and GS European Standards
- Double Polyurethane wheels — not nylon. Durable and makes for a comfy ride.
- Fully cast hydraulics mean it is much less likely to crack or leak.
- Delivery approximately \$50 and same day.
- See all specifications below.

We guarantee them for a full 12 months against faulty manufacturing — but so far we've sold thousands of these jacks nationally and had ridiculously low returns.

Euro Jack (550mm)

Standard (685mm)

Choices, choices, choices. You can choose the Euro Jack (550mm distance to outside forks) or the Standard (685mm) — most people go for the Standard.

Sorry we didn't clean the front wheels for this picture, but you can see how solid these poly wheels are — the small front wheels guide the pallet under the forks.

**RACKPALLET**

### DETAILS OF QUALITY

• **HANDLES** — comfortable thick rubber handle

• **WHEELS** — double poly wheels with metal rims

• **FOOT RELEASE** — convenient extra foot release pedal

• **PUMP** — fully cast hydraulics housing so it won't break.

### STANDARD JACK SPECIFICATIONS

Capacity	2500kg
Fork Outside Distance	685mm
Fork Inside Distance	360mm
Fork Length	1220mm
Total Lift Height	185mm
Lowered Fork Height	75mm
Max. Lifting Height	110mm
Front Loaded Wheel	Double Poly
Weight	85kg
<b>Price</b>	<b>\$349.00</b>

### EURO JACK SPECIFICATIONS

Capacity	2500kg
Fork Outside Distance	550mm
Fork Inside Distance	230mm
Fork Length	1150mm
Total Lift Height	185mm
Lowered Fork Height	75mm
Max. Lifting Height	110mm

# CONTACT & QUESTIONS

## RACK PALLET

### FAQ

#### WHY ARE YOU SO CHEAP?

We deal direct with a huge overseas manufacturer and we don't have resellers. There is no middleman. And we keep it lean. No fancy pants executive assistants. No meetings. No rented artificial flowers in our showrooms.

#### DO YOU INSTALL?

We certainly do. Our team can give you a fixed quote & come out and put your warehouse together in no time.

#### CAN I INSTALL IT MYSELF?

Yes, you can. Go to our website and you'll find a handy little article showing you how to do it.

#### DO YOU DO OTHER TYPES OF RACKING?

Yes, we do double-deep racking, cantilever racking and drive through racking. Please ring to discuss.

#### CAN YOU SHARPEN THE PENCIL?

Yes. If you have a big job we can certainly do you a deal.

#### CAN I RESELL YOUR PRODUCTS?

Generally, no. But if you would like to set up a dedicated branch in your region get in contact with us.

#### IS YOUR RACKING DEXION COMPATIBLE?

Yes. You can tell Dexion racking by the coffin shaped hole on the upright. Ours slots right in.

#### DO YOU SELL SECOND HAND RACKING?

No, because we have no idea where it has been and how many times it has been hit with a forklift -- and how soon it will fall on your employees.

#### WHAT ARE YOUR FAVOURITE COLOURS?

Orange & Blue

Generally, no. But if you would like to set up a dedicated branch in your region get in contact.

Different upright heights used to avoid a sloping roof.

Our Longspan shelving in a big warehouse

2 bays of 2500mm high x 2400mm

2 sizes of pallet jack. Euro for tight spots. Standard for a smooth ride.

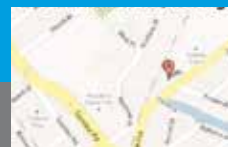

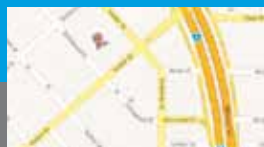

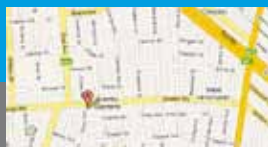

Chrome wire or epoxy shelving. Over 20 sizes to choose from.

high quality + in stock + everyday prices
